

Appendix V – organisms that require a permit for release under section 11 (1) c) and f)

A permit is not required if the plant is not likely to spread beyond the area, and its spread does not involve a risk of adverse impacts on biological diversity

The prohibition does not apply to cultivates or varieties, for example sterile variants, that may not have adverse impacts on biological diversity.

Plantae	Planter; Plants	
Aceraceae	Lønnefamilien; Maple family	
<i>Acer pseudoplatanus</i> L.	Platanlønn; Sycamore	A permit is not required when released in central city-areas, see Statistics Norway for a definition and map for such areas.
Adoxaceae	Moskusurtfamilien; Elderberry family, Moscatel family	
<i>Sambucus racemosa</i> L.	Rødhyll; Red Elderberry	
Apocynaceae	Gravmyrtfamilien; Milkweed family	
<i>Vinca minor</i> L.	Gravmyrt; Lesser Periwinkle	
Asteraceae	Kurvplantefamilien; Aster family, Sunflower family	
<i>Petasites hybridus</i> (L.) G. Gaertn., B. Mey. & Scherb.	Legepestrot; Pestilence Wort	
<i>Petasites japonicus</i> ssp. <i>giganteus</i> (Siebold & Zucc.) Maxim.	Japanpestrot; Giant Butterbur	
Balsaminaceae	Springfrøfamilien; Balsam family	
<i>Impatiens parviflora</i> DC.	Mongolspringfrø; Small Balsam, Small-flowered Touch-me-not	
Caprifoliaceae	Kaprifolfamilien; Honeysuckle family	
<i>Lonicera involucrata</i> (Richardson) Banks ex Spreng.	Skjermleddved; Twinberry Honeysuckle	
<i>Lonicera tatarica</i> (L.)	Tatarleddved; Tartarian Honeysuckle	
Cornaceae	Kornellfamilien; Dogwood family	
<i>Swida alba</i> (L.) Opiz syn. <i>Cornus alba</i> L.	Sibirkornell; Tartar dogwood	

Appendix V – organisms that require a permit for release under section 11 (1) c) and f)

A permit is not required if the plant is not likely to spread beyond the area, and its spread does not involve a risk of adverse impacts on biological diversity

The prohibition does not apply to cultivates or varieties, for example sterile variants, that may not have adverse impacts on biological diversity.

Papaveraceae	Valmuefamilien; Poppy family	
<i>Corydalis solida</i> (L.) Clairv.	Hagelerkespore; Spring Fumewort	
Pinaceae	Furufamilien; Pine family	
<i>Larix decidua</i> (Mill)	Europalerk; European Larch, Alpine Larch	
<i>Picea sitchensis</i> (Bong.) Carrière	Sitkagran; Sitka Spruce	
<i>Pinus mugo</i> ssp. <i>mugo</i> (Turra)	Buskfuru; Dwarf Mountain Pine	A permit is only required for the release in municipalities with the occurrence of A- or B-localities of sand dunes or coastal heathlands.
<i>Tsuga heterophylla</i> (Raf.) Sarg	Vestamerikansk hemlokk; Western hemlock, Pasific hemlock	
Ranunculaceae	Soleiefamilien; Buttercup family, Crowfoot family	
<i>Clematis alpina</i> (L.) Mill.	Alperanke; Alpine Virgin's-bower	A permit is only required for release in the municipality of Øyer, in the county of Oppland.
Rosaceae	Rosefamilien; Rose family	
<i>Alchemilla mollis</i> (Buser) Rothm.	Praktmarikåpe; Garden Lady's-mantle	
<i>Amelanchier alnifolia</i> (Nutt.) M. Roem	Taggblåhegg, heggsøtmispel; Saskatoon, Pacific Serviceberry, Western Serviceberry, Alder-leaf Shadbush, Dwarf Shadbush, Western Juneberry	
<i>Amelanchier lamarckii</i> F.G.Schroed	Kanadablåhegg, lamarksøtmispel; Juneberry, Snowy mespilus	
<i>Amelanchier spicata</i> (Lam.) Koch	Blåhegg, junisøtmispel; Low Juneberry	
<i>Cotoneaster horizontalis</i> Decne.	Krypmispel; Wall Cotoneaster	
<i>Cotoneaster lucidus</i> Schltld.	Blankmispel; Shiny Cotoneaster	
<i>Cotoneaster moupinensis</i>	Mørkmispel; Moupin	

Appendix V – organisms that require a permit for release under section 11 (1) c) and f)

A permit is not required if the plant is not likely to spread beyond the area, and its spread does not involve a risk of adverse impacts on biological diversity

The prohibition does not apply to cultivates or varieties, for example sterile variants, that may not have adverse impacts on biological diversity.
